

LIFT YOUR LIFESTYLE TO THE NEXT LEVEL

Bespoke roof terraces,
gardens & urban retreats

LONDON ROOF
GARDENS

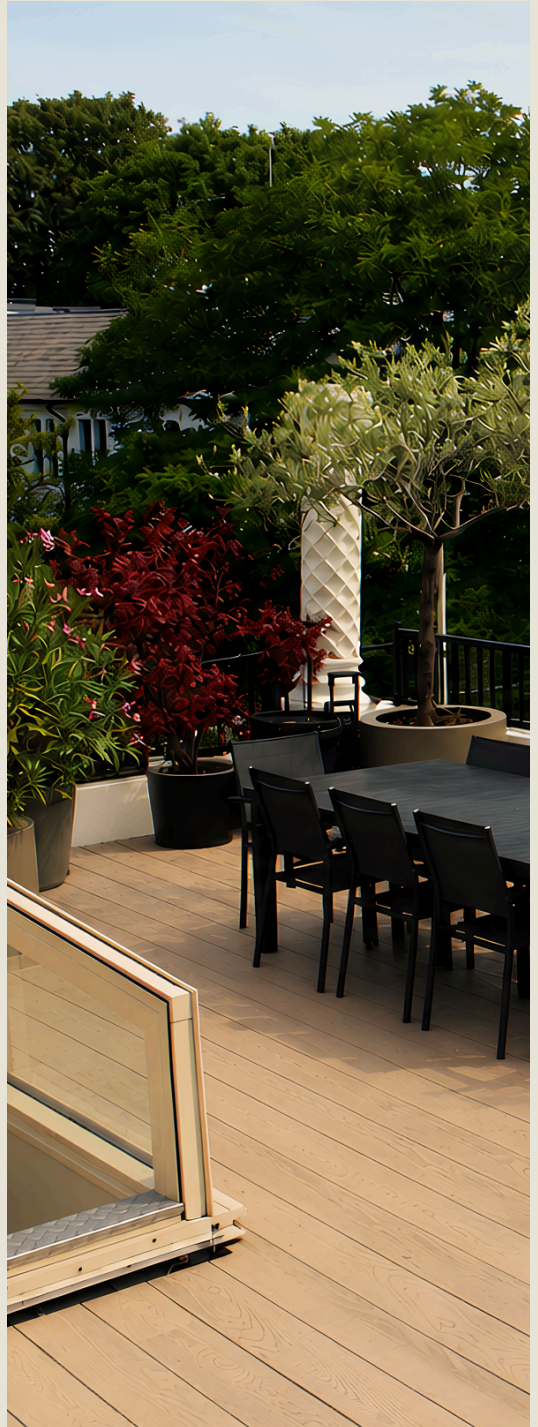

LONDON ROOF GARDENS

YOUR ROOF REIMAGINED

We transform urban rooftops, terraces, and balconies into extraordinary outdoor sanctuaries –crafted for living, entertaining, and quiet escape. Combining refined design, structural expertise, and flawless execution, we turn overlooked spaces into your home’s most captivating feature.

*“Elevated living,
impeccably built.”*

OUR SPECIALIST
SERVICES

SPACES DESIGNED ABOVE THE CITY

Complete end-to-end expertise—
from structural engineering to
bespoke architectural finishes.

Roof Terrace Design & Build

We translate your vision into a
practical, elevated living space. Our
team manages every detail—from
spatial layout and structural
decking to custom planting scheme
—tailored precisely to your lifestyle.

Flat Roof Conversions

Upgrading underutilised roof space
into secure, luxury outdoor retreats.
We handle the full process, including
structural assessments, advanced
waterproofing, and high-end
architectural finishes.

Balcony Refurbishments

Breathing new life into existing
balconies. Using zero-rot Millboard
decking and contemporary glass
balustrades, we create stylish, low-
maintenance outdoor spaces for year-
round living.

Hospitality & Commercial Terraces

Expanding venue capacity and
corporate footprints. We build high-
traffic roof gardens that balance
luxury aesthetic with commercial
safety, building insulation, and urban
biodiversity.

FROM CONCEPT TO COMPLETION

01 Consultation & Discovery

Every extraordinary space begins with understanding your vision and lifestyle aspirations. We explore layout possibilities, architectural constraints, and material palettes to define an initial concept tailored precisely to your property.

02 Design & Spatial Planning

We translate ideas into meticulous 3D CAD renders and detailed architectural plans. From structural weight calculations to bespoke lighting schemes, every detail is engineered for elegance and regulatory compliance.

03 Precision Construction

Our specialist craftspeople manage the entire build with minimal disruption to your home. Backed by deep structural expertise, we oversee every phase—from waterproofing and decking to final custom planting.

04 Handover & Aftercare

Upon completion, we provide a thorough walkthrough alongside bespoke care guidelines for your garden. Our commitment continues beyond handover, ensuring your outdoor sanctuary remains pristine year-round.

*From first
concept to final
detail, we
coordinate the
design and
construction of
spaces that feel
effortless to
use and built to
last.*

BUILT FOR BEAUTY, ENGINEERED FOR LONGEVITY.

Every project is considered from the structure outward—combining refined materials, robust detailing, and disciplined delivery. We bridge the gap between complex engineering and luxury design.

Structural Surveys & Load Analysis

Thorough engineering checks to ensure full safety and regulatory compliance.

Advanced Weatherproofing

High-performance membranes designed to protect and preserve your property long-term.

Premium Millboard Decking

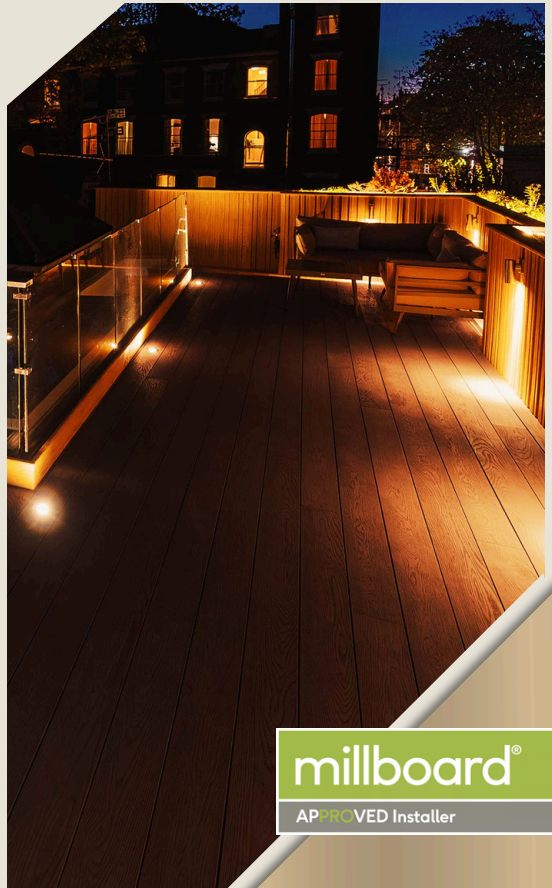

Ultra-durable, zero-rot surfaces engineered to retain their beauty across every season.

Architectural Glass & Balustrades

Frameless glass systems designed for wind resistance while maximizing open city views.

Integrated Ambience & Lighting

Subtle, low-voltage LED systems tailored for evening entertaining and atmospheric depth.

millboard®

APPROVED Installer

MORE THAN A GARDEN. AN EXTENSION OF YOUR LIFESTYLE.

An expertly designed roof terrace expands your living environment, seamlessly bridging interior comfort with elevated outdoor living.

It transforms underutilised square footage into your home's most valued asset.

Sophisticated Entertaining

An effortless, private backdrop for hosting intimate dinners, evening drinks, or gatherings high above the city skyline.

A New Urban Perspective

Unrivalled views across London's architectural landscape, crafted to maximize natural light and open-air tranquility.

A Considered Property Investment

Adding prime usable square footage and premium architectural appeal that elevates overall property market value.

Urban Ecology & Biodiversity

Architectural planting schemes designed to bring nature back to city living, supporting local wildlife and air quality.

Thermal Insulation & Efficiency

Green roof technology and decking layers that improve building insulation, regulating indoor temperature year-round.

Year-Round Usability

Integrated heating, ambient lighting, and sheltered lounge areas engineered for comfort in every season.

UNMATCHED EXPERTISE. COMPLETE PEACE OF MIND.

Transforming a rooftop in London requires far more than aesthetic design—it demands complex structural compliance, precision waterproofing, and seamless project management. We take full responsibility for every phase, ensuring your investment is protected for decades to come.

TURNKEY DELIVERY

We handle every stage—from initial architectural concept and planning permissions through to structural build and final planting.

STRUCTURAL INTEGRITY & COMPLIANCE

Engineered in strict accordance with UK building regulations, structural load limits, and advanced waterproofing standards.

MASTER CRAFTSMANSHIP & WARRANTIES

Built using premium, weather-tested materials backed by robust warranties, including zero-rot Millboard and structural safety glass.

DEDICATED PROJECT DIRECTOR

A single point of contact throughout the entire lifecycle, providing clear communication, scheduled updates, and absolute timeline discipline.
